

## **Felipe Augusto do Nascimento**

My Idol is called Felipe Augusto do Nascimento, he is 17 years old and he lives in Contagem, Minas Gerais. He is a student of CEFET-MG and he is a first year. This human being is my Idol for just being me. When I need something, I go for it and I can do it. I can say that I am the only person that can handle my problems and I am the only one that understands the difficulties that I've been through daily. I admire me a lot for the person I am as I am able to create fans everywhere I go because of the way I treat people, and I can't see me without this person. I believe that you, teacher, knows who is my Idol. He is very happy; he tries to be funny and he is very respectable and adorable. I can't forget how useful he is, as this is how his friends call him. What is very admirable with my Idol is that: no matter what is happening, the only thing that you must know is that you can count on him not giving up ever and he will always help you with what he can.
